Schedule of Fees

Support at Home — Service Pricing Guide

Effective 1 July 2026

Rates effective 1 July 2026

Understanding Your Service Fees

Our prices include the costs of delivering each service, including administration, staff training, quality oversight and staff travel. Care management is funded separately. Each price is shown with its service duration or billing unit.

Care management

For ongoing Support at Home services, 10% of your quarterly budget is allocated to pooled care management funding. The care management rates in this guide show the price of care management activities; they are not an additional 10% fee. Different funding arrangements apply to short-term pathways.

Travel and individual service prices

Staff travel costs are included in service prices. Where your circumstances require a different service price, we will explain the reason and agree the price with you before the service. Any difference from our published price will be recorded in your service agreement.

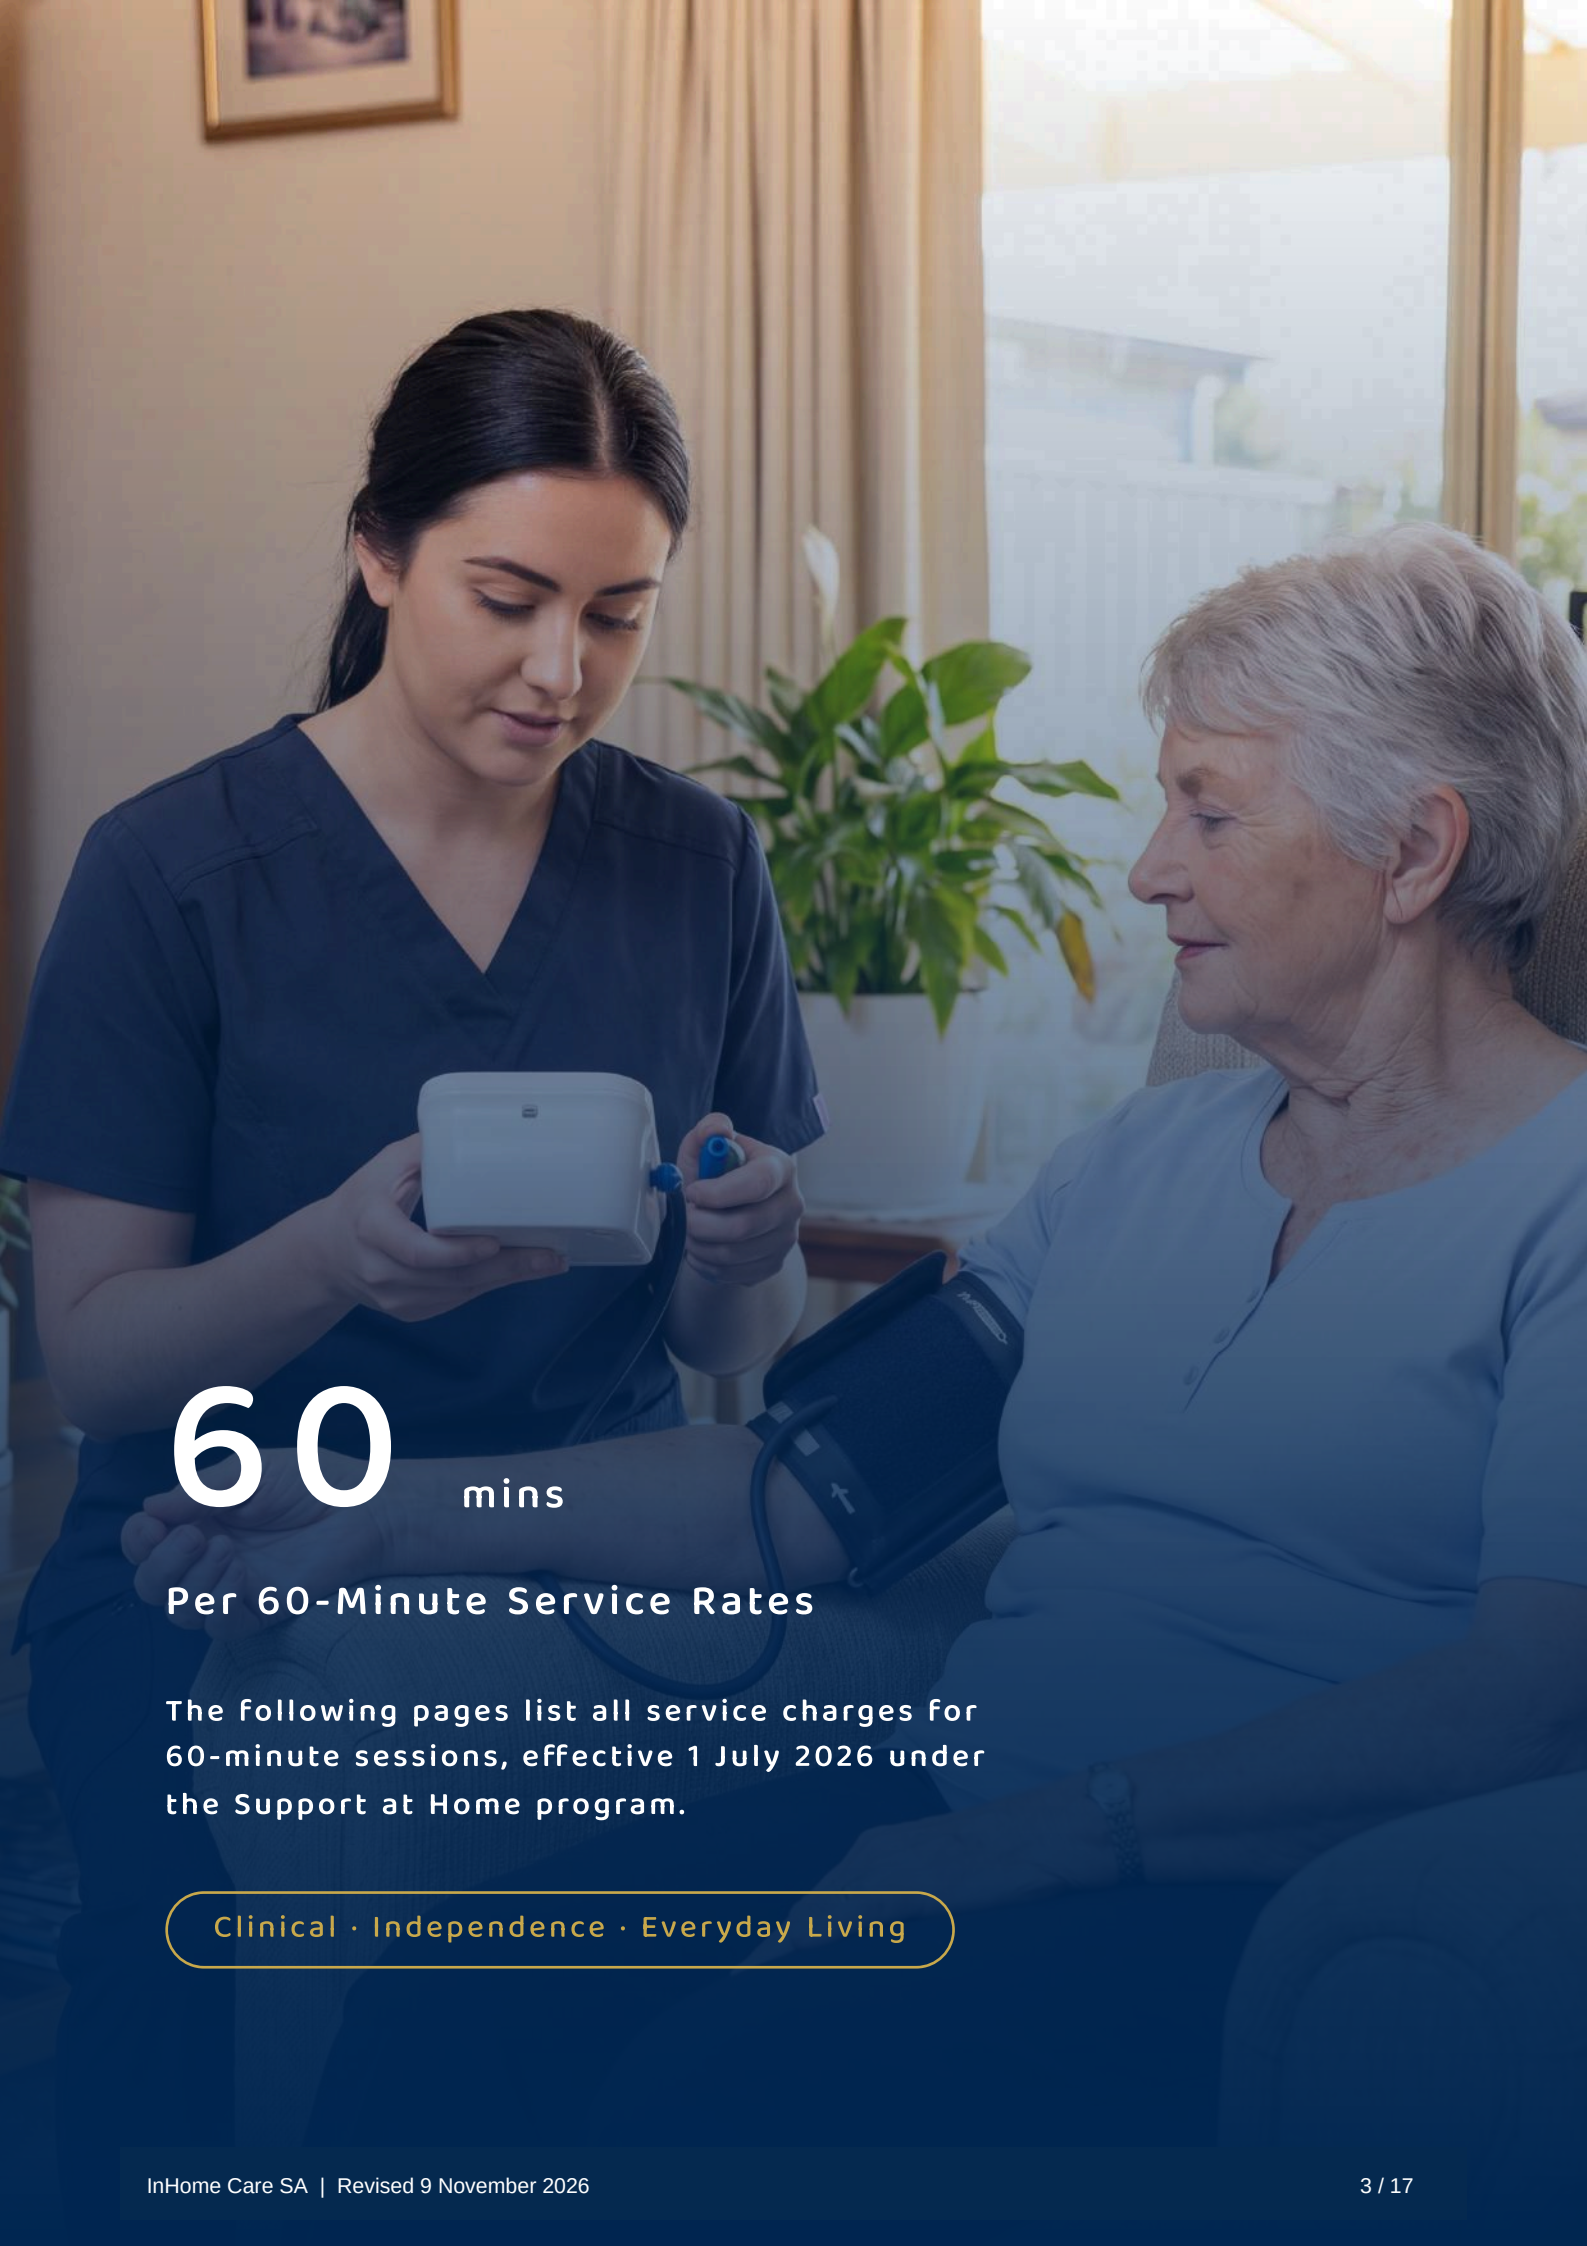

Associated providers

If an associated provider delivers your service, we will explain and agree the full service price and applicable cancellation terms with you in advance.

Price changes

We will consult with you about proposed price changes, explain the reasons and document your agreement before applying a new price.

PH = public holiday. A dash means no price is listed for that time band; contact your Care Partner to discuss availability and agree any applicable price. POA = price on application.

60 mins

Per 60-Minute Service Rates

The following pages list all service charges for 60-minute sessions, effective 1 July 2026 under the Support at Home program.
